the icon reinvented

New Renault Duster rewrites its legend in a whole new way. Modern, sophisticated design with powerful presence featuring an exclusive grille combined with a muscular body. Enhanced ground clearance and a sporty flair emphasized by the unique launched edition(1), yellow decals on the side sills(1), and a brushed aluminum iconic plate(1).

The enlarged grille along with signature front and rear LED lights combine to reveal the Duster emblem. The 18 inch(1) alloy wheels add a powerful feel to its silhouette.

Sleek rear end showcases the features of a sophisticated suv: LED horizontal rear light bar(1) for enhanced visibility and protective skid plates.

The aesthetics of detail: black fixed longitudinal roof bars adorned with yellow accents, a dynamic rear roof spoiler and a shark-fin antenna.

(1) available depending on version.

distinguished interior

Enveloping comfort from the front ventilated seats(1) to the perforated leatherette interior. Yellow accents on the leatherette(1) wrap with carbon finish(1) on the upholstery, dashboard, steering wheel, door panels and armrests seamlessly extends the yellow design touches from the exterior.

(1) available depending on version.

openR link multimedia system

Enjoy seamless integration with openR link multimedia. Access Android Auto™/Apple CarPlay™ on the 10.1 inch screen for smooth and intuitive navigation.

humanized technology

New Renault Duster provides a truly digital experience that keeps you informed about your vehicle, your driving and much more.

The 10.2 inch[1][2] TFT driver display presents all the data the driver needs at a glance. Essentials are available everywhere, at any time.

Enjoy seamless connected experience with the new Renault Duster's wireless smartphone charging[2]. Simply place your smartphone on it when you need to recharge it.

(1) 10.25'' TFT driver display. (2) available depending on version.

new standards of comfort

The driver-centric cockpit includes a tilted display dashboard with dual openR screens[1] and an elevated central console with e-shifter[1]. For ultimate driving comfort on every journey, take a seat in electric & ventilated front seats[1] with 6-way adjust and manual lumbar adjustment for both driver and passenger[1]. Immerse yourself in a rich audio experience with the Arkamys® sound system[1], featuring six speakers[1] distributed throughout the cabin.

Electric panoramic sunroof[1] designed to bring all the surrounding natural light into the cabin.

Everything you need finds its place in the 518 L trunk. Easily loaded in an instant, thanks to the power tailgate[1] and low loading edge.

(1) available depending on the version.

116kW 1.3L Turbo

maximum power	gearbox	N.m torque
116kW	6 speed EDC(1)	260

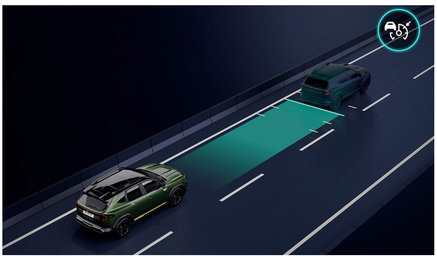

6-speed EDC gearbox(1) with paddle shifters. The 116kW 1.3L Turbo engine is optimized for performance. Enjoy diverse driving pleasure with the multi-sense system(2) and its 3 driving modes (eco, comfort, personal) with 48 colour ambient lighting customisation. Choose according to your desires and every situation.

(1) also available in manual version. (2) available depending on the version.

human first program
safety by Renault

17 advanced driver-assistance systems

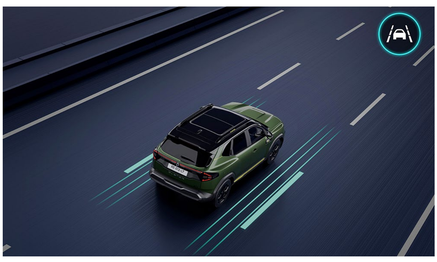

adaptive cruise control with stop & go
The system uses the front radars and cameras to maintain the cruising speed as long as the selected following distance is respected. It brakes to keep that distance, if necessary until the vehicle comes to a complete stop, and can also restart and accelerate back to the cruising speed as long as the following distance is maintained.

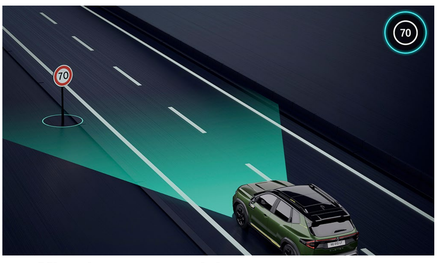

multi-view camera
The 4 cameras, whose images recreate the vehicle's environment around it, allow you to perform your manoeuvres effortlessly and maneuver in complete safety.

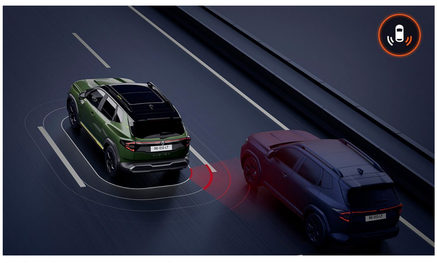

active emergency braking system - urban / pedestrian / cyclist
The camera and radar sensor provide a warning and intervene to avoid any collisions with pedestrian, cyclist or vehicle.

lane keeping assist
Applies a correction to the steering wheel to bring the vehicle back into its lane if you fail to engage your indicator.

traffic sign recognition
The system uses the front camera, combined with connected map data, to identify the current speed limit. The speed limit is displayed on the vehicle's instrument panel.

blind spot warning
Enabled at speeds over 15 km/h, this system uses warning lights to alert you to the presence of vehicles that are not visible in your field of vision.

human first program
safety by Renault

the human first program is a comprehensive safety program developed by Renault in collaboration with researchers, experts and fire-fighters.

because road safety is the business of all road users –be they pedestrians, cyclists or motorists– the human first program by Renault undertakes to:

1. **prevent accidents by developing safety equipment and advanced driving and safety assistance systems**

up to 34 advanced driving assistance systems/more than 60 safety systems, up to 7 airbags, child seats (Isofix), Renault's Fixe4sure solution/more than 2,000 safety-related patents filed since 1970

2. **manage accidents once they have happened by drawing on innovations developed in collaboration with fire-fighters**

QRescue/Fireman Access/more than 5,000 fire-fighters trained over the past 10 years in 20 countries throughout the world/around 400 cars given per year for their training

3. **reduce the number of accidents and their severity by investing massively in R&D**

safety score/safety coach/connected services/big data/artificial intelligence and cybersecurity systems

Renault care service
